German Academic Exchange Service (DAAD) from the funds of the German Federal Ministry of Research, Technology, and Space.

The project is carried out in collaboration with Germany’s Leibniz University Hannover and the Lviv Polytechnic National University. It is intended to establish a sustainable German-Ukrainian academic collaboration in the fields of energy technology, power engineering, mechatronics, robotics, and artificial intelligence.

Representatives of Kyiv Polytechnic’s International Collaboration Department discussed the development and systematic expansion of academic mobility and exchanges, the prospects for new joint projects, and the organisation of shared courses.

In addition, the representatives of Igor Sikorsky Kyiv Polytechnic Institute took part in the *Night of Science 2025* events, the largest scientific forum in Hannover, where they showcased their technological developments, generating great interest among the German academic and industrial communities.
