

Representatives of the department continue to expand the internationalization of the

by admin on December 1, 2025

This week was filled with joint  activities within the **On-Campus Workshop** under the **DAAD MERIT-UKRAINE ENERGY** project with **Leibniz Universität Hannover**.

The Ukrainian delegation was represented by educators from **Igor Sikorsky KPI, Lviv Polytechnic**, and the **Admiral Makarov National University of Shipbuilding**.

The department was represented by:

- Head of the department, Professor **Serhii Boychenko**,
- Program Director of the *Master's* educational program, Associate Professor **Leonid Kulakovskiy**,
- Coordinator for work with international students, Associate Professor **Anton Toropov**.

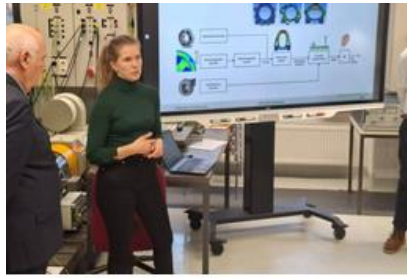

The workshop brought a positive communication atmosphere, informative meetings, presentations, constructive discussions, and the outlining of future plans. We are grateful to the hosting side for their attention to Ukrainian partners — something extremely important to us in this historic period.

Our representatives are pleased to be part of this collaboration, which positively inspires innovative activities and enhances the level of internationalization of our educational work
