Geography of cooperation countries of the world

5%

Credit mobility of students from full-time study form

20%

Scientific publications (Scopus/WoS) in co-authorship with foreigners

// About the project

1. Why this project and what is its relevance?

The project aims to overcome the “fear of the unknown” and psychological barriers among faculty members that prevent them from participating in international collaboration, despite their subject-matter expertise.

2. Project Goals

Development and Pilot: Create a curriculum and conduct a pilot training for the "Academ-In" course for a group of 10-15 teachers until completion of the MInT-Ukraine program (target: issuance of 10-12 certificates).
