

# XXVII SUMMER RESEARCH PROGRAM UG

International edition 2022  
(Virtual modality).

The University of Guanajuato through the Office of International Relations and Academic Collaboration calls to participate in the XXVII Summer Research Program UG International edition 2022 (Virtual modality).

## Objective

International students will join the XXVII Summer Research Program UG in a work team made up of local students from the University of Guanajuato to develop a research project led by a professor from the University of Guanajuato, for which it will be necessary to establish contact with the Office of International Relations and Academic Collaboration and submit an official application. Due to the virtual nature of the program no financial support will be granted.

The research project will be carried out in a team composed of a professor from the University of Guanajuato with a minimum of 3 and a maximum of 6 students, with the aim of generating a product according to the nature of the project, for example: a) Research: Articles, posters, among others; (b) Education: Manuals, teaching guides, infographics or workshops; and (c) Public communication of science: podcasts, videos, posters, infographics or blogs; to be published on the Summer page (<http://www.veranos.ugto.mx>), in the magazine *Jóvenes en la Ciencia* or in the YouTube channel *eUGereka: tu conecte con la Ciencia*.

## Requirements of the official nomination for international students:

- Letter of nomination from the international office of the Higher Education Institution (HEI) of origin **mentioning the name of the project in which the student will participate and the name of the professor who leads it at the University of Guanajuato.** (Choose from the list available on the webpage <http://www.veranos.ugto.mx/> and on the IntraUG platform <https://intraug.ugto.mx/> as of February 22, 2022).

- Letter of academic recommendation from a professor of the IES of origin.
- Copy of the Academic History (unofficial) showing all the subjects taken at the level in which the student is currently enrolled with a minimum general average accumulated equal to or equivalent to 9; where 7 is the pass point and 10 the maximum rating.
- Curriculum Vitae* without evidentiary documents, in which the student expresses the preferred area of research.
- Self-presentation essay and statement of purpose of participation in which the language in which the research will be carried out (Spanish or English) is indicated, the letter must include digital signature of the student and date.

**Deadline for submission of nominations:  
March 7, 2022**

## Participation process for international students:

- Students will be nominated by their respective International Offices in the HEI of origin with all the documentary requirements mentioned prior to the following email address: [internacional@ugto.mx](mailto:internacional@ugto.mx) before **March 7, 2022.**
- Subsequently, students will receive login and password from the Office of International Relations and Academic Collaboration to the page <http://www.dca.ugto.mx/> to complete their registration before **March 10, 2022** by viewing their profile in the status: *Solicitante*.

International edition 2022  
(Virtual modality).

3. The Office of International Relations and Academic Collaboration will communicate by email with the professor responsible for the project, requesting the student's pre-approved entry into its research team. The professor will pre-approve the students who meet the necessary characteristics to develop the project, according to academic criteria.
4. The Office of International Relations and Academic Collaboration will inform the student if he or she was pre-approved to a research team by a professor, if so, the office will give him or her instructions to register on the platform **IntraUG** <https://intraug.ugto.mx/> to select the project in which he or she has been pre-approved and answer the questionnaire of personal and academic data with not extendable deadline: **March 14, 2022**.
5. The professor leading the research project will validate the student adherence to the research team on the platform **IntraUG** <https://intraug.ugto.mx/> (even if he or she has been pre-approved into the research team before by email).
6. The projects will be submitted for evaluation by the Academic Committee from which a list of accepted projects will emerge as of **May 3, 2022**. The professors and students who integrate these accepted projects will be able to continue with the program of XXVII Research Summer Program UG international edition 2022 (virtual modality). A letter of acceptance will be delivered after **May 3, 2022** to the student only if the project of the professor of the University of Guanajuato to which he or she was pre-approved has been accepted by the Academic Committee.
7. Students who comply with the aforementioned process will have adhered to the characteristics of the XXVII Research Summer Program UG and will be able to develop their research activities virtually, faithfully complying with the instructions they receive throughout the program from **June 23 to August 4, 2022**.

## **Congress of the XXVII Summer Research Program UG:**

The professor responsible for the project will send in the period from **July 22 to 25, 2022** the products generated during the summer. The Coordination of the XXVII Summer Research Program UG will inform in a timely manner the means by which they will be delivered.

The teams will present the results generated during their research at the Congress of the XXVII Summer Research Program UG, which will be held on **August 3 and 4, 2022** virtually, in real time, through the interactive platform of the Summer, the website and further instructions to attend will be provided after the results of the research are delivered.
