

## Our Services

European programmes are an important factor in the acquisition of external funding, but also serve as a major platform for high-ranking international collaboration. However, in their rules of participation as well as financial modalities EU programmes differ vastly from national funding programmes. To meet the resulting need for information and advice services, the EU-Liaison Office Hannover/ Hildesheim has been established.

### What can we do for you?

- We provide a comprehensive overview of European funding programmes and offer support with identifying suitable funding schemes for your ideas as well as support during the **proposal** and **implementation** phase of your **EU projects**. Gladly we arrange a **meeting tailored to your needs** at your convenience.
- We support you in identifying **partners for collaborative projects** ([Enterprise Europe Network](#)).
- We offer you an information service on European funding opportunities and selected transnational calls for proposals. You will receive topic-specific information by e-mail at irregular intervals, depending on the call situation. Important: this offer is directed exclusively at members of the universities in the Hannover/Hildesheim region. Please use our [EU-Info Service Form](#) to register.
- **First-hand information** is part of our **information events** with speakers from the National Contact Points and the European Commission. At our website you can register for the [events newsletter](#)
- We offer to present information on EU funding programmes as **speaker at your events**, such as project meetings in the region of Hannover/ Hildesheim or in-house workshop

Whether you wish general information on European funding programmes or you have specific questions, feel free to contact us about all EU-funding related matters.
